LAUNCH OF IRELAND'S FIRST SUSTAINABLE FINANCE ROADMAP

As action 1 of the 2021 Ireland for Finance Action Plan, "Building on Resilience" the development of Ireland's Sustainable Finance Roadmap signifies government's commitment to advancing Ireland's sustainable finance agenda. Ireland's ambition is to be a leader in this space by 2025.

Working with over 50 key stakeholder organisations across Ireland's financial services industry, Sustainable Finance Ireland, in collaboration with the Department of Finance led the development of the roadmap over a six-month period, culminating in the launch at Climate Finance week 2021.

The roadmap is a key milestone in our sustainable finance journey as a nation. Built as a living document to evolve and guide Irish sustainable finance activities in the context of the European Green Deal and the Renewed Strategy for Financing the Transition to a Sustainable Economy, for the coming years.
